

Your online presence, fixed & working together.

A plain look at what's live today, what \$850 covers, and how Google and Yelp fit into the same plan — no contracts, no monthly lock-in.

WHAT'S ALREADY WORKING — CHECKED LIVE 09-25

✓ **Your Google Business Profile is live and claimed** — 5.0 stars, 3 real reviews (Teresa, Dana, Paul), and you personally replied to every one of them. That part's not broken.

The site is what needs the work — not your reputation.

WHAT'S ACTUALLY LIVE RIGHT NOW

- ⚠ **The site's contact email is a placeholder** — "info@mysite.com" is still live on rlclandscape.com. Nobody who fills that out reaches you.
- ⚠ **No phone number listed anywhere on the site** — even though it's right there on your own truck: (501) 545-3421.
- ⚠ **Unedited template text is still showing** — a section literally reads "Add a title here. Make it bold and impactful. Click to edit."
- ⚠ **The three reviews on the site are sample text**, not real customers — "John Smith," "Emily Johnson," generic Wix template testimonials. (Your real ones are on Google, just not on your own site yet.)
- ⚠ **No Facebook business page yet** — you're on Facebook personally, but there's nothing for the business itself.

0/3

Separately: I asked AI assistants who does lawn care, landscaping, and irrigation in the Village — RLC didn't come up in any of the three, real competitors did. Full breakdown in the AI Visibility Report I sent along with this. Same fix as above closes this gap too — competitors are winning because they have a full page per service, not because they're better.

THE FIX — ONE FLAT PRICE

\$850 one-time, everything below

- ✓ Rebuilt site — real phone, working contact form, your real logo
- ✓ Google Ads set up and explained in plain terms — what a "click" costs and why
- ✓ Live in about 5 business days
- ✓ Google Business Profile — already claimed, we'll fill it out fully and optimize it
- ✓ Domain & everything put in your name — you own it outright
- ✓ 30 days of questions after launch, no charge

Not included yet, available later if you want them: a promo video, a Facebook business page, ongoing monthly hosting/support.

HOW THIS STACKS UP AGAINST THE \$649/MO OFFER

THIS PLAN

\$850 once

No contract. You own the domain immediately.
Cancel nothing because there's nothing to cancel.

THEIR PLAN

\$649 × 12 = \$7,788

1-year contract. You get the domain back only after
the year is up.

THE YELP SIDE — KEEP WHAT'S WORKING

Yelp's already bringing you real leads, so the plan is to make it work harder, not replace it:

- **The disappearing reviews are normal** — Yelp temporarily hides new reviews while it checks the reviewer's account; they typically return within 60–90 days. Not something broken on your end.
- **Reviews stick better when the reviewer's own profile is filled out** (photo, a few details) — worth a quick mention when you ask.
- **Space review requests out** — a few a week reads as organic; a dozen in one week can trip Yelp's filter even when every review is real.
- **Consider the Verified License badge** (~\$1/day) — landscaping qualifies, and Yelp's own data shows about a 10% average lift in calls/clicks/map views after adding it.

WHAT HAPPENS NEXT

1

You give the go-ahead

2

Your buddy hands me site access

3

Live in ~5 business days

4

30 days of Q&A, no charge
